

Spectral Surface mounted

Pergament LED 2014

Diamonds are forever.

LED

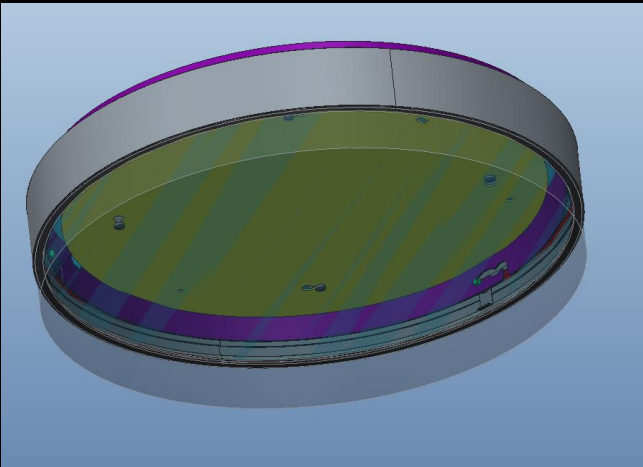

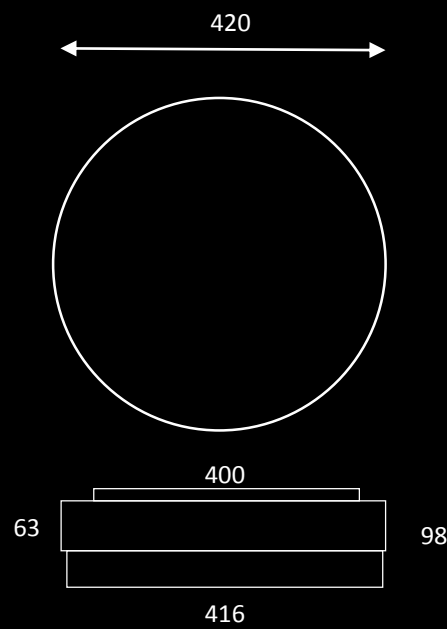

The fact you cannot see the LED source is one thing but the almost holographic nature of the new Pergament LED is intriguing and alluring. The diffuse light puts a small amount of light back onto the surface and gives a jewel like appearance quite unique to an LED luminaire.

Fascinating surface mounted ceiling luminaire with white powder coated housing. Main element is the super polished acrylic glass block, the front face of which has a matt texture. In combination with a special polar white diffuser no lamp imaging from the LED is evident.

Spectral Surface mounted

Pergament LARGE round
Dimensions – cross section:

Pergament LARGE round:

Power:	30 watts
Cri:	85+
Lumens:	4300 Lm
IP rating:	IP20
Diffuser :	Acrylic glass
Body :	Aluminium extrusion
Finish :	White / Silver / Black
Control :	Dali Dimmable version available
Power supply :	24 volt mounted
Warranty :	5 years, with matched parts available <10 years
